ABOUT ME

I'm a Multidisciplinary Designer and Developer with 10 years of experience working across **graphic design**, **UX/UI**, **branding**, **product design** and **front-end development**.
I move comfortably between the creative and technical sides of a project, supporting everything from early research and ideation to prototyping, interface design and front-end implementation.
I'm organized, proactive, detail-oriented and I strive to deliver thoughtful work and collaborating with multidisciplinary teams.

EDUCATION

2023 · HENRY
Full-stack Developer

2020 - 2021 · EDUCACIÓN IT
UX/UI Designer & Web Developer

WORK EXPERIENCE

2022 · PRESENT - FREELANCER
MULTIDISCIPLINARY DESIGNER & FRONT-END DEVELOPER

At PROVEN/Noteworthy I supported the team as a Technical Designer and Web Developer, working on UI improvements, component development, responsive design and content-driven features across their platforms in Shopify and Builder.io.
I currently collaborate with Global Asset where I handle graphic design for social media, presentations and I'm currently leading the redesign of their website.
My freelance work allows me to combine visual design, UX/UI, branding and front-end development, adapting to the needs of each project and helping clients strengthen their digital presence.
